MediCare Patient Portal - Software Requirements Specification

Version 1.2

1. Introduction

This document defines the functional requirements of the MediCare patient portal.

REQ-REG-01: A patient registers with full name, email, mobile number and password.

REQ-REG-02: Passwords must be 8 to 64 characters and include one digit and one symbol.

2. Account Activation

REQ-AUTH-01: Patient accounts become Active after successful OTP verification.

REQ-AUTH-02: The OTP is 6 digits and expires 5 minutes after it is sent.

REQ-AUTH-03: An OTP can be used only once.

REQ-AUTH-04: After 3 consecutive invalid OTP attempts the account is locked for 15 minutes.

REQ-AUTH-05: Until activation, the account status is Pending and login is rejected.

3. Appointments

REQ-APT-01: Active patients can book appointments up to 30 days in advance.

REQ-APT-02: A patient can hold at most 3 upcoming appointments.

REQ-APT-03: Cancellation is allowed until 2 hours before the appointment time.
